Representation 1189246 request from the Inspector

I note that there are inappropriate comments in representation 1189246 which relate to an identifiable party.

The Council need to do two things.

1. Redact all the behavioural allegations from representation 1189246 and let the representor and complainant know the reason for this.
2. In response to representation 1189246, produce a **brief** but properly evidenced note for the examination as to:

(i) whether and how satisfactory access can be provided to the allocation and

(ii) whether and how the requirements of Strategic Policy 20: Development Principles are capable of being met and maintained in the long term by this allocation.
