

Good afternoon,

Thank you for the opportunity to comment upon the Submission Neighbourhood Plan for Rusper. Please see below for the WSCC Services response.

In general, the County Council looks for Neighbourhood Plans to be in conformity with the District and Borough Councils' latest draft or adopted development plans. The County Council supports the District and Borough Councils in preparing the evidence base for these plans and aligns its own infrastructure plans with them. The County Council encourages Parish Councils to make use of this information which includes transport studies examining the impacts of proposed development allocations. Where available this information will be published on its website or that of the relevant Local Planning Authority.

In relation to its own statutory functions, the County Council expects all Neighbourhood Plans to take due account of its policy documents and their supporting Sustainability Appraisals, where applicable. These documents include the West Sussex Waste Local Plan, Joint Minerals Local Plan, West Sussex Transport Plan and the West Sussex Lead Local Flood Authority Policy for the Management of Surface Water. It is also recommended that published County Council service plans, for example Planning School Places and West Sussex Rights of Way Improvement Plan, are also taken into account.

Our only specific comment at this time is that the reference in para 2.9 to the WSCC Minerals Plan incorrectly states 'Materials' where it should say 'Minerals'.

Kind regards,

The Planning Policy and Infrastructure Team
