

Ref 68 Resident

Dear Sir,

I am a concerned local resident and I have already sent my detailed comments in re the Ashington Neighbourhood Plan but would like to comment on both of the above plans.

I uphold Ashington Neighbourhood Plan suggestions entirely, as the outcomes suggested have been well researched and meet Ashington specific needs.

I do not support HDP for our area as I feel it has been based on false information.

1. We do not have a hospital, only one of the equine variety.
2. We do not have direct bus links to Brighton.
3. We do not have the infra structure to support such a vast development.
4. Access to the A24 and Billingshurst Road is a nightmare already.

In view of the recent mid Sussex water supply crisis surely new reservoirs need to be considered for the future and in light of COVID-19, I suspect many commercial properties may become future housing too.

I hope the Government will review their demand on our area before we just leave a concrete jungle for our decedents.

Yours Sincerely,
