Dear Ms. Trueman,

I hope you are well.

I am writing to you directly as the landowner of **Plot 3, Bramblefield, Bramble Lane, Thakeham (RH20 3DZ)**regarding the ongoing Local Plan Examination.

In relation to the Inspector's recent query **(IDJB12)** and the Council's subsequent response statement **(HDCJB32)** [HDCJB32], I wanted to provide our official **Land Registry Plan Map** to help clarify the access layout for the site.

I hope this map provides useful visual clarity for the Inspector regarding the site's layout:

- **Boundary Connection:** As shown on the plan, our land (outlined in **red**) directly adjoins the access track (shaded in **blue**), showing a continuous connection with no intervening third-party land.
- **Access Point:** The black arrow on the plan points directly to our property boundary where it connects straight into this blue track. This access route has now been opened up to its full mapped width, ensuring safe and comfortable room for daily residential use and routine vehicle turnings.

As noted in Paragraph 4 of the Council's response, planning officers have previously visited the site via this route and found the access to be safe and suitable [HDCJB32].

Could you please ensure this map is shared **directly with Inspector Jonathan Bore** to be included alongside the Council's statement in the Examination Library?

Thank you very much for your time and assistance.

Yours sincerely,

Mrs Mitchell
Plot 3, Bramblefield
RH20 3DZ
