

Horsham District Council Local Planning Authority

Rudgwick Parish Neighbourhood Development Plan 2020-2031

FINAL DECISION STATEMENT

Date: 19 March 2021

1.0 INTRODUCTION

- 1.1 Horsham District Council (“the Council”) has a statutory duty¹ to support Parish Councils and Qualifying Bodies in the preparation of Neighbourhood Development Plans (NDPs) and Orders and to take NDPs and Orders through a process of examination and referendum.
- 1.2 This decision statement relates to the NDP produced by Rudgwick Parish Council (RPC). Under the Town and Country Planning Act 1990 (as amended), (“the 1990 Act”) Horsham District Council (“the Council”) has a statutory duty to support Parish Councils and Qualifying Bodies in the preparation of NDPs and Orders and to take NDPs and Orders through a process of examination and referendum. The Localism Act 2011 (Part 6 chapter 3) sets out the responsibilities under Neighbourhood Planning
- 1.3 Following the Examination of the Rudgwick NDP and the receipt of the Examiner’s Report. Horsham District Council is required to make a decision on the next steps. As set out in the Neighbourhood Planning Regulations these are:
 - a) to decline to consider a plan proposal under paragraph 5 of Schedule 4B to the 1990 Act (as applied by section 38A of the 2004 Act) or a modification proposal under paragraph 5 of Schedule A2 to the 2004 Act;
 - b) to refuse a plan proposal under paragraph 6 of Schedule 4B to the 1990 Act (as applied by section 38A of the 2004 Act) or a modification proposal under paragraph 8 of Schedule A2 to the 2004 Act;
 - c) what action to take in response to the recommendations of an Examiner made in a report under paragraph 10 of Schedule 4B to the 1990 Act (as applied by section 38A of the 2004 Act) in relation to a neighbourhood development plan or under paragraph 13 of Schedule A2 to the 2004 Act in relation to a proposed modification of a neighbourhood development plan;

¹ The Town and Country Planning Act 1990 (as amended)

- d) what modifications, if any, they are to make to the draft plan under paragraph 12(6) of Schedule 4B to the 1990 Act (as applied by section 38A of the 2004 Act) or paragraph 14(6) of Schedule A2 to the 2004 Act;
- e) whether to extend the area to which the referendum is (or referendums are) to take place; or
- f) that they are not satisfied with the plan proposal under paragraph 12(10) of Schedule 4B to the 1990 Act (as applied by section 38A of the 2004 Act) or the draft plan under paragraph 14(4) of Schedule A2 to the 2004 Act.

1.4 In accordance with the Regulations, this report forms the Council's Decision Statement (Regulation 18(2)) and sets out the Council's decision and the reasons for this.

1.5 Appended to this document is a map of the Rudgwick Neighbourhood Plan Area, entitled Appendix A. Appendix B sets out the Examiner's Proposed Modifications to the Rudgwick NDP along with the actions taken and revised modifications.

2.0 BACKGROUND

2.1 In 2016 Rudgwick Parish Council commenced work on its NDP. The Neighbourhood Plan Area was designated by Horsham District Council on 28 June 2016. The Rudgwick Neighbourhood Development Plan (RNDP) area covers the entire parish of Rudgwick. A map of the designated Neighbourhood Plan Area can be found at Appendix A.

2.2 Rudgwick Parish Council have carried out two Pre-Submission consultations on the RNDP. The first Pre-Submission RNDP underwent consultation in accordance with Regulation 14 from 23 December 2019 to 17 February 2020. Following an initial review of the comments received the Neighbourhood Planning group in consultation with their planning consultant concluded that the degree and significance of modifications required to the plan would require a further pre-submission consultation. The RNDP was modified and the Second Pre-Submission consultation was held between 18 May 2020 and 19 July 2020.

2.3 Rudgwick Parish Council submitted the submission draft plan to the Council on the 4 September 2020. The Submission Draft RNP was publicised and representations were invited for seven weeks between Friday 2 October and Friday 20 November 2020.

2.4 Andrew Ashcroft was appointed by Horsham District Council with the consent of RPC, as 'the Examiner' to undertake the examination of the Rudgwick NDP and to prepare a report of the independent examination.

2.5 The Examiner's report was received on 16 March 2021. It concludes that the RNDP, subject to a number of recommended modifications meets the basic conditions set out in the legislation and can proceed to referendum.

2.6 As has already been indicated in paragraph 1.3 of this report, Regulations 17A and 18 of the Neighbourhood Planning (General) Regulations 2012 (as amended) requires the local planning authority to outline what action to take in response to the recommendations of an Examiner following the formal examination.

3.0 DECISION

- 3.1 Having considered the recommended modifications made by the Examiner's Report, and the reasons for them, Horsham District Council, with the consent of RPC has considered each of the recommendations and agreed the action to take in response to each recommendation. It was decided to accept all the modifications made to the draft plan by the Examiner under paragraph 12(2)(4) of Schedule 4B to the Town and Country Planning Act 1990. The Examiner's proposed modifications are set out at Appendix B alongside the reason why the modification was accepted.
- 3.2 The District Council underwent a 'standard' screening for all neighbourhood plans in the district and has confirmed that the RNDP was screened in accordance with the Strategic Environmental Assessment (SEA) Directive and concluded a SEA was not required in this instance as the plan contains no site allocations for development. The examiner has concurred with this assessment.
- 3.3 The RNDP was also screened in accordance with the Conservation of Habitats and Species and Planning (Various Amendments) (England and Wales) Regulations 2018. The screening concluded that the RNDP would have no significant effects in respect of European sites as a result of the implementation of the policies within the Rudgwick Neighbourhood Development Plan and Appropriate Assessment is not required. The Examiner agreed with this assessment.
- 3.4 It follows, the examiner was satisfied the standard SEA Screening Opinion prepared by the District Council, the HRA Screening Report and the policies within the RNDP are compatible with EU obligations and therefore the Basic Conditions.

4.0 THE REFERENDUM AREA

- 4.1 The Council is in agreement with the Examiner's recommendation that there is no policy or proposal significant enough to have an impact beyond the designated neighbourhood plan area, and that any referendum that takes place in due course be contiguous with the boundary of the designated Neighbourhood Plan area as shown at Appendix A.

5.0 CONCLUSION

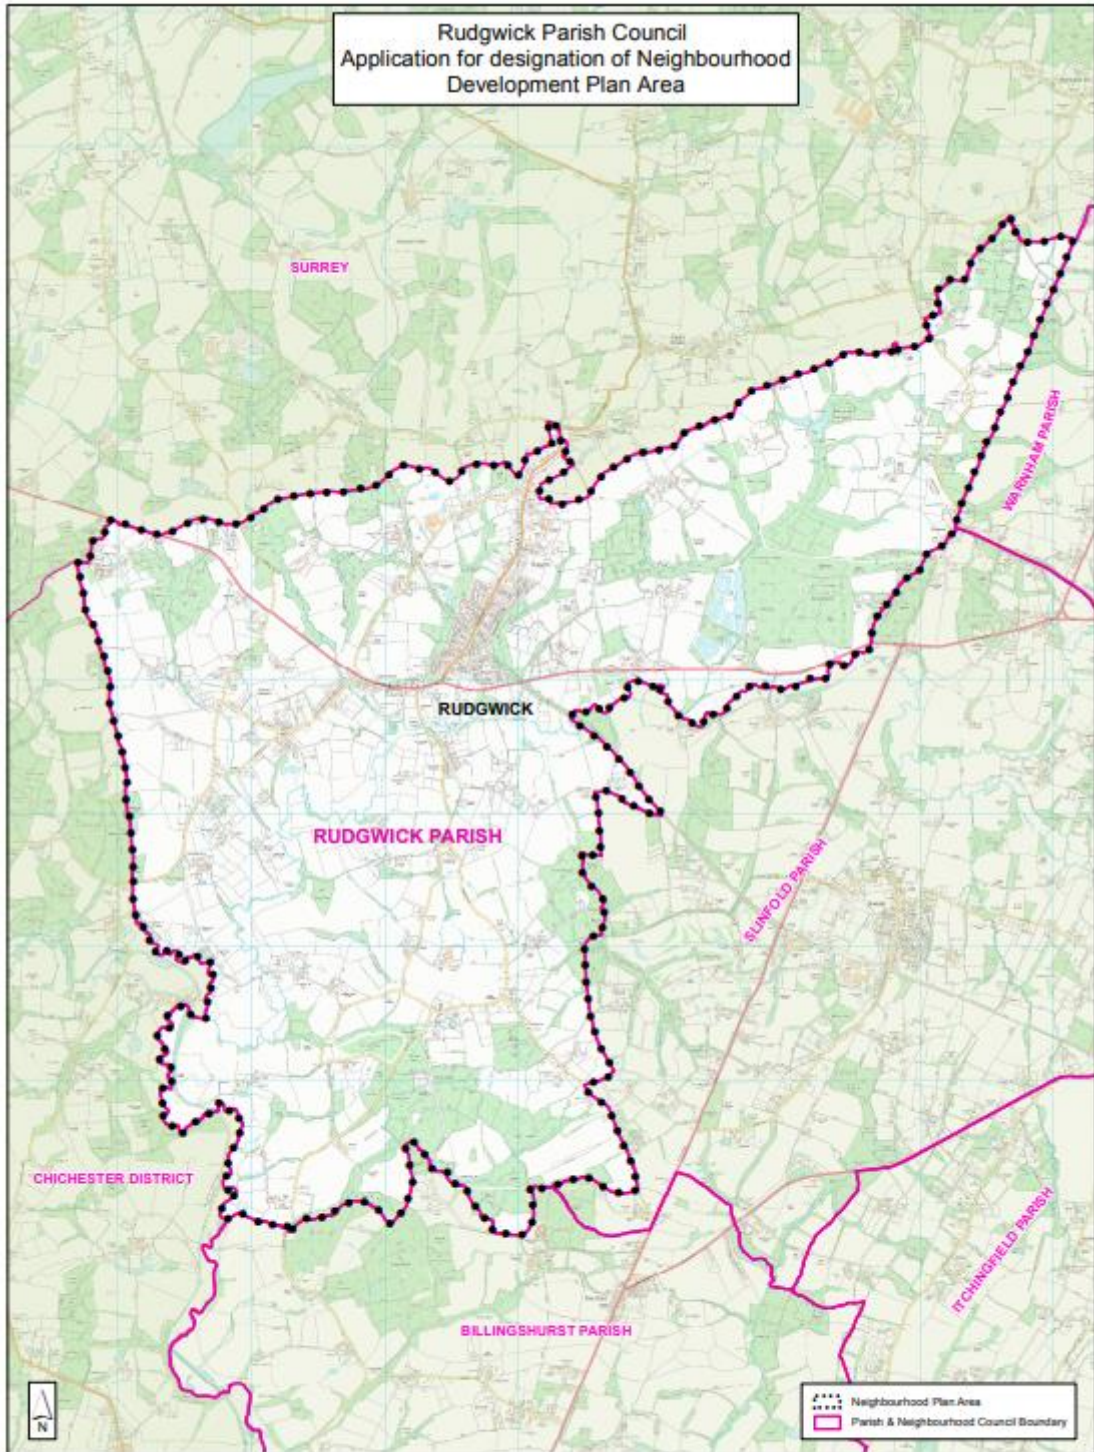

- 5.1 The Council is of the view that the draft submission Rudgwick NDP as modified in Appendix B: Examiner's Proposed Modifications to the Rudgwick Neighbourhood Development Plan 2020-2031, complies with the legal requirement and may now proceed to Referendum.
- 5.2 The COVID-19 pandemic has resulted in mandatory restrictions on movement since March 2020 to prevent transmission of the virus and protect vulnerable groups. The [Local Government and Police and Crime Commissioner \(Coronavirus\) \(Postponement of Elections and Referendums\) \(England and Wales\) Regulation 2020](#) prevents any referendum on neighbourhood plans being held until 5 May 2021 at the earliest. Upon the issue of the decision statement, 'significant weight' can be applied to the plan by the decision maker when considering planning applications. The Council will seek to progress the RNDP to referendum as soon as practically safe to do so.

RNP4 RNP4.1	RNP4.1 Development proposals must <u>should</u> not result in a net loss of bungalows.	HDC agree with the Examiner's recommendation for modifications to policy RNP4.1 to provide clarity and have regard to National Policy.	No further action required. Modification to be taken forward to the final plan.
RNP4.2	RNP4.2 Development proposals that would increase the number of bungalows and are in accordance with other policies in this plan will be supported as they help to meet the identified housing needs of older or disabled residents in the Parish.	HDC agree with the Examiner's recommendation for modifications to the latter element of Policy RNP4.2 as it justifies the policy rather than acts as a policy in its own right	
RNP4.3	RNP4.3 Major developments must provide at least 15% of all new homes as bungalows or open market sheltered/retirement housing, or a combination of the two. <u>Development proposals for open-market sheltered and retirement accommodation which are in accordance with other policies in this plan will be supported.</u>	HDC agree with the Examiner's recommendation for a modification to policy RNP4.3 to remove the prescriptive approach towards the development of bungalows and replace it with a more general approach towards open-market sheltered and retirement accommodation	
RNP4.4	RNP4.4 To ensure homes are fit for all ages, all new homes should achieve M4(2)* of the optional <u>The development of new homes which achieve Part M4.2 of the Building Regulations will be supported where they otherwise comply with development plan policies.</u>	HDC agree with the Examiner's recommendation for a modification policy RNP4.4 so that the policy is replaced with one which offers general support for the	

		development of houses to the higher standards	
RNP5 RNP5.1	RNP5.1 All proposals incorporating new residential units should demonstrate how the scheme reflects the surrounding built density of the relevant settlement <u>immediate locality of the development site.</u>	HDC agree with the Examiner's recommendation for modifications to the policy to ensure reference about density in the relevant settlement is replaced with reference to the density of the immediate locality of the site. This approach would take account of the different densities within the six settlements and in Rudgwick in particular.	No further action required. Modification to be taken forward to the final plan.
RNP5.2	RNP5.2 Densities which exceed the existing situation may be permitted where: a) The development is within Rudgwick Village Centre, as defined on the Policies Map; or b) The housing mix provided is in accordance with RNP2.	Unchanged	
Paragraph 5.18	The policy below therefore seeks to ensure that any new development continues to reflect the existing built densities to respect the established built character. <u>The policy should be applied in association with Policy RNP4. The development of bungalows may have an impact on both the layout and the density on the site concerned.</u>	HDC agree with the Examiner's recommendation for modifications to the text to provide clarity	No further action required. Modification to be taken forward to the final plan
RNP6 RNP6.1	RNP6.1 Development should utilise materials that reflect the common building styles across the Parish. This means that:	HDC agree with the Examiner's recommendation for modification to the third criterion of Policy RNP6.1 so	No further action required. Modification to be taken forward to the final plan.

RNP6.2	<p>a) Brick should be the main building material complemented by tile-hanging on the upper floor where appropriate. Barn style cladding or clapboard is an acceptable alternative to tile hanging in Rudgwick.</p> <p>b) New or reclaimed brickwork should match existing frontages.</p> <p>c) Tiles are the most acceptable roofing material whether traditional handmade or modern. Slate may be appropriate in extensions to homes already roofed in slate <u>Tiles should be used as roofing material whether traditional handmade or modern.</u></p> <p>RNP6.2 Full or partial timber framing in buildings should be used sparingly.</p>	<p>that it has the clarity required by the NPPF</p> <p>HDC agree with the Examiner's recommendation to delete RNP6.2 as the policy lacks precision and cannot be applied consistently</p>	
Paragraph 6.5	<p>New buildings should therefore use these materials which have previously been used in the locality. <u>There are some timber-framed buildings in the parish. This is a building style which is difficult to achieve with modern building materials. Where such building techniques are proposed the development should be of the highest quality and take account of local traditions and detailing. RNP7.2	<p>b) Chimneys as centrally located ridge stacks and end of gable stacks. c) Sash windows d) Timber fielded panel or more simple plank doors</p> <p>However, proposals that apply such details as a poorly integrated part of the overall design, will not be considered to have achieved a high quality of design and, therefore, will not be supported</p> <p>RNP7.2 Where works are proposed to existing buildings, styles of windows, doors and porches should match originals where possible, in addition to ensuring any extension to the frontage is in keeping with the existing architecture <u>Insofar as planning permission is required works to existing buildings (including styles of windows, doors and porches) should match originals wherever practicable, and ensure that any extension to the frontage of the building is in keeping with its existing architecture and design.</u></p>	HDC agree with the Examiner's recommendation to modify Policy RNP7.2 to provide clarity	No further action required. Modification to be taken forward to the final plan.
Paragraph 6.7	<p>Rudgwick has acquired its share of buildings which are poorly designed, so it is important that henceforth we build to a high standard. <u>Policy RNP7.2 recognises that not all works to existing dwellings will need planning permission. Nevertheless, where this is the case the Plan would encourage property owners to ensure that the form and detailing of the works concerned respects the character, appearance and architectural format of the building concerned. RNP9.2	<p>RNP9.2 All paths, vehicular routes and parking areas should actively minimise surface runoff from the site. Measures could include:</p> <p>a) adopting sustainable solutions, such as the use of porous or permeable materials</p> <p>b) paving only the line of wheel tracks.</p> <p>c) integrated soft landscaping to soften the appearance of the area, including tree planting where in-keeping.</p> <p><u>All paths, vehicular routes and parking areas should actively minimise surface runoff from the site.
