3

**Please give details of your reasons for support/opposition, or make other comments.**

You must provide an answer to this question.

- 3 - The core principles are to be supported, retaining Southwater, Tower Hill and Christ's Hospital as defined, separate communities with no merging or coalescence between these communities or any other communities.
- 4 - The highway network is already stressed and, with the future expansion of housing both in Horsham District and in neighbouring districts, this will only get considerably worse. Limiting expansion to the minimum possible should be paramount.

5 - securing and designating open spaces is wholeheartedly supported. The designation of formal/informal sports areas must ensure these areas are protected. Should any development proposals be put forward which would result in the loss of any sports facility, an alternative and improved facility must be provided before the original facility is removed.

7 - the provision and maintenance of non-motorised routes is supported. Any development proposal which may affect any of these routes, visually, aesthetically, or in any other respect affect such a route should be refused.

8 - Parish Heritage Assets are vital to a community's sense of identity and should be protected.

**What improvements or modifications would you suggest?**

You must provide an answer to this question.

Include Horsham Golf Club in the Community Infrastructure list (para 2.23). It occupies an important area of land, provides local employment opportunities and provides an important leisure resource that is not restricted only to members.

5

**Do you wish to be notified of the local planning authority's decision under Regulation 19 of the Neighbourhood Plan (General) Regulations 2012 in relation to the Southwater Neighbourhood Development Plan?**
