Notes
1. This map shows the modelled scenarios for the 1 in 100 year fluvial flooding with additional allowances for climate change based on the Environment Agency's Flood Risk Assessments. Climate Change Allowances. This is provided on the Environment Agency Website (www.gov.uk/environment-agency).
2. The modelling of the main rivers defines the extent of flooding with additional allowances for climate change anticipated for the 2080s (2070 to 2115) during the 1% AEP (1 in 100 chance each year) plus 35% (Central), 45% (Higher Central) and 105% (Upper End).
