

Ref 25

Dear Sir/Madam

I would like to register my support for the Henfield Neighbourhood Plan. It represents sustainable development for the village using existing brown field sites where possible, minimising the impact on the countryside, while providing the needed homes and employment opportunities.

I would particularly like register my support for the site G in the plan and the redevelopment of the Old Kennels Site, (3.1.5) as it proposes to reuse existing employment land and a site which is already surrounded by businesses. As a small business owner myself, this type of redevelopment could provide opportunities for my business in the local area.

Kind regards
