

MEDICAL ASSESSMENT FORM

ASSOCIATED WITH AN APPLICATION FOR A LICENCE TO DRIVE A HACKNEY CARRIAGE OR PRIVATE HIRE VEHICLE

Notes for the Applicant

This medical examination now includes a vision assessment that must be filled in by a doctor or optician/optometrist. Some doctors will be able to fill in both the vision and medical assessment sections of the report. If your doctor is unable to fully answer all the questions on the vision assessment you must have it filled in by an optician/optometrist. If you do not wear glasses to meet the eyesight test standard, or if you have a minus (-) eyesight prescription, your doctor may be able to fill in the whole report. If you wear glasses and you have asked a doctor to fill in the report, you must take your current prescription to the assessment.

The Council is not responsible for any fees that you may pay to a doctor and/or optician/optometrist and/or other medical specialist, even if you are unable to meet the Group 2 medical fitness to drive standard.

You must take a form of photographic identity to the examination, for example your passport or DVLA driving licence

- All new driver applications are subject to a full Group II Medical Assessment completed by a GP at the surgery where the applicant is registered.
- Any driver renewing a licence is subject to a further medical every five years until they reach the age of 65 then annually if they continue to hold a licence.

General

An applicant/driver with an ongoing medical condition, ie, diabetes which is controlled by insulin, or has a heart condition, will be required to provide the Council with details of any change in that condition or in their medication.

During the life of a licence:

- (i) a driver diagnosed with a new medical condition or
- (ii) a driver who has an existing condition which develops (and may affect their ability to drive) is required to inform the Taxi Licensing Section immediately. In these circumstances a further medical may be required.

Medical standards for drivers of Hackney Carriages and Private Hire Vehicles are higher than those required for other car driver's; these are in accordance with DVLA Group 2 standards.

Conditions affecting fitness to drive may result in a licence may be refused/ suspended or revoked.

This assessment needs to be completed in full
Licence renewals will not be processed where a Medical Assessment Form has not been received.

**Applicants/drivers should ensure that they have allowed plenty of time to both book
and attend GP appointment(s) for completion of this assessment**

Please return completed form to:

Horsham District Council, Licensing Department, Parkside, Chart Way, Horsham, West Sussex RH12 1RL

Applicant's consent and declaration:

(Please read the following carefully before signing and dating the declaration).

I authorise my General Practitioner(s) and Specialist(s) to release medical information about my condition, together with any relevant information relevant to fitness to drive, to the Taxi Licensing Section of Horsham District Council for the purpose of the Council (by its Officers and/or Members) of assessing my fitness to drive a hackney carriage or private hire vehicle licensed by that Council.

I declare that, to the best of my knowledge and belief, all information given by me to my doctors in connection with the examination or completion of the DVLA Group 2 medical examination report is true.

In the event that the Council is not satisfied of my fitness to drive a hackney carriage or private hire vehicle, I may, at my own cost, submit further medical evidence to the Council as I consider appropriate.

General Practitioner

This form must be completed in full by the applicant's own General Practitioner. Please answer all questions and once completed sign the declaration at the end.

The Council's policy on medical fitness requires that taxi drivers meet Group 2 Entitlement, as set out in the DVLA publication 'Assessing Fitness to Drive - A Guide for Medical Professionals'.

This guide makes reference to current best practice guidance contained in the booklet 'Fitness to Drive' which recommends the medical standard applied by DVLA in relation to bus and lorry drivers should also be applied by local authorities to taxi drivers.
