Dear Sir/Madam

TOWN AND COUNTRY PLANNING (ENVIRONMENTAL IMPACT ASSESSMENT) REGULATIONS 2017 (SI 571/2017) ('THE EIA REGULATIONS')

Appeal by Mr David King

Site Address: Land at Abbots Leigh, Washington Road, Storrington, West Sussex, RH20 4AF

I refer to the above appeal.

The Secretary of State has considered the application in accordance with Regulation 14 (1) of the above Regulations.

The development proposed is as follows: Outline Planning Application with all matters reserved apart from access for 1no. 4-bedroom dwelling with associated private garden space, car parking and landscaping.

The development proposed falls within the description at 10 (b) of Schedule 2 to the above Regulations. In the opinion of the Secretary of State, having taken into account the criteria in Schedule 3 to the above Regulations, the proposal would not be likely to have significant effect on the environment for the following reasons:

The Proposed Development site falls within the Sussex North Water Supply Zone (SNWSZ) as defined by Natural England and which draws its water supply from groundwater abstraction at Hardham. It is considered that new development in this Zone could have adverse effects on the integrity of the following nearby designated sites:

- The Arun Valley Special Protection Area (SPA), Special Area of Conservation (SAC), and Ramsar site.

The Proposed development is also located close to the boundary of the South Downs National Park, which is a designated sensitive area as defined by the EIA Regulations.

Considering the nature, scale and location of the Proposed Development and nature of the receiving environment, whilst there may be some impact on the surrounding area and nearby designated sensitive areas as a result of this development, it would not be of a scale and nature likely to result in significant environmental impact. The threshold criteria at 10 (b) of Schedule 2 to the above regulations are also not exceeded.

The Proposed Development is not EIA development.

Accordingly, in exercise of the powers conferred on the Secretary of State by Regulations 14(1) and 7(5) of the above Regulations, the Secretary of State hereby directs that this development is not Environmental Impact Assessment (EIA) development.

Under regulation 28(1) of the above Regulations, the relevant planning authority must take steps to secure that this screening direction is placed on the part of the Planning Register which relates to the application in question. I would be grateful if you could do so to ensure that the Secretary of State's view is publicly available.

(This direction does not affect any duties of the appellant under other legislation, including The Conservation of Habitats and Species Regulations 2017.)

Yours sincerely

David Smale

DAVID SMALE
EIA and Land Rights Advisor

(Signed with the authority of the Secretary of State)
